Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant proposed new wording for claim 1 to clarify the 112 rejection. If presented in an after final amendment it would be entered and would overcome the 112 rejection. The wording as presented by applicant was "the plurality of receptacles comprising at least three receptacles positioned at different heights, from the bottom of the concrete form, the heights being equally spaced apart heightst". Additionally applicant noted that the 103 rejection statement that "applicant has not disclosed that such a feature solves as tateed problem..." is incorrect as the specification on pages 3 and 7-9 disclose advantages of the feature. Examiner noted that upon iniitial glance providing such remarks in an amendment appear to overcome the rejection, but that upon examination another rejection with the same art may be applied .
